

Project Demo Planning

Date	06 July 2026
Team ID	
Project Name	Ledgerline – Credit Card Approval Prediction System
Maximum Marks	1 Mark

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Briefly explain the problem banks face with manual credit card review and why an ML solution is needed	2	Siri (Team lead)
2	Solution Overview	Walk through the architecture: data pipeline, 4-model comparison, Flask app, IBM Watson deployment	3	Manasa
3	Live Demo — New Application	Enter a sample applicant profile and show the Approve/Decline stamp with confidence score	3	Rupa
4	Live Demo — Batch Screening	Upload sample_batch.csv and walk through the compliance screening results table	3	Jahnavi
5	Model Report Page	Show the 4-model comparison chart, ROC curves, and feature importance	2	Sudha
6	Q&A Session	Open to evaluator questions	5	All members

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Keep brief — 1-2 slides or spoken summary; jump to the app quickly
2	Solution Overview	Show the architecture diagram; emphasize the 4-model comparison
3	Live Feature Demonstration	Run through all 3 scenarios: new application, batch screening, model report

Step	Activity	Notes
4	Q&A Session	Prepare to explain the calibrated threshold and why Logistic Regression won
